INTRODUCTION

GCC IN BRIEF

General Construction Company LLC embarked on its journey of growth in Dubai in 1996, establishing a renowned reputation for integrity, quality, service, and meticulous attention to detail.

Our transition from a local builder to one of the most esteemed construction companies in the UAE is a testament to the enduring relationships we've fostered over the years and our personalized approach to client service.

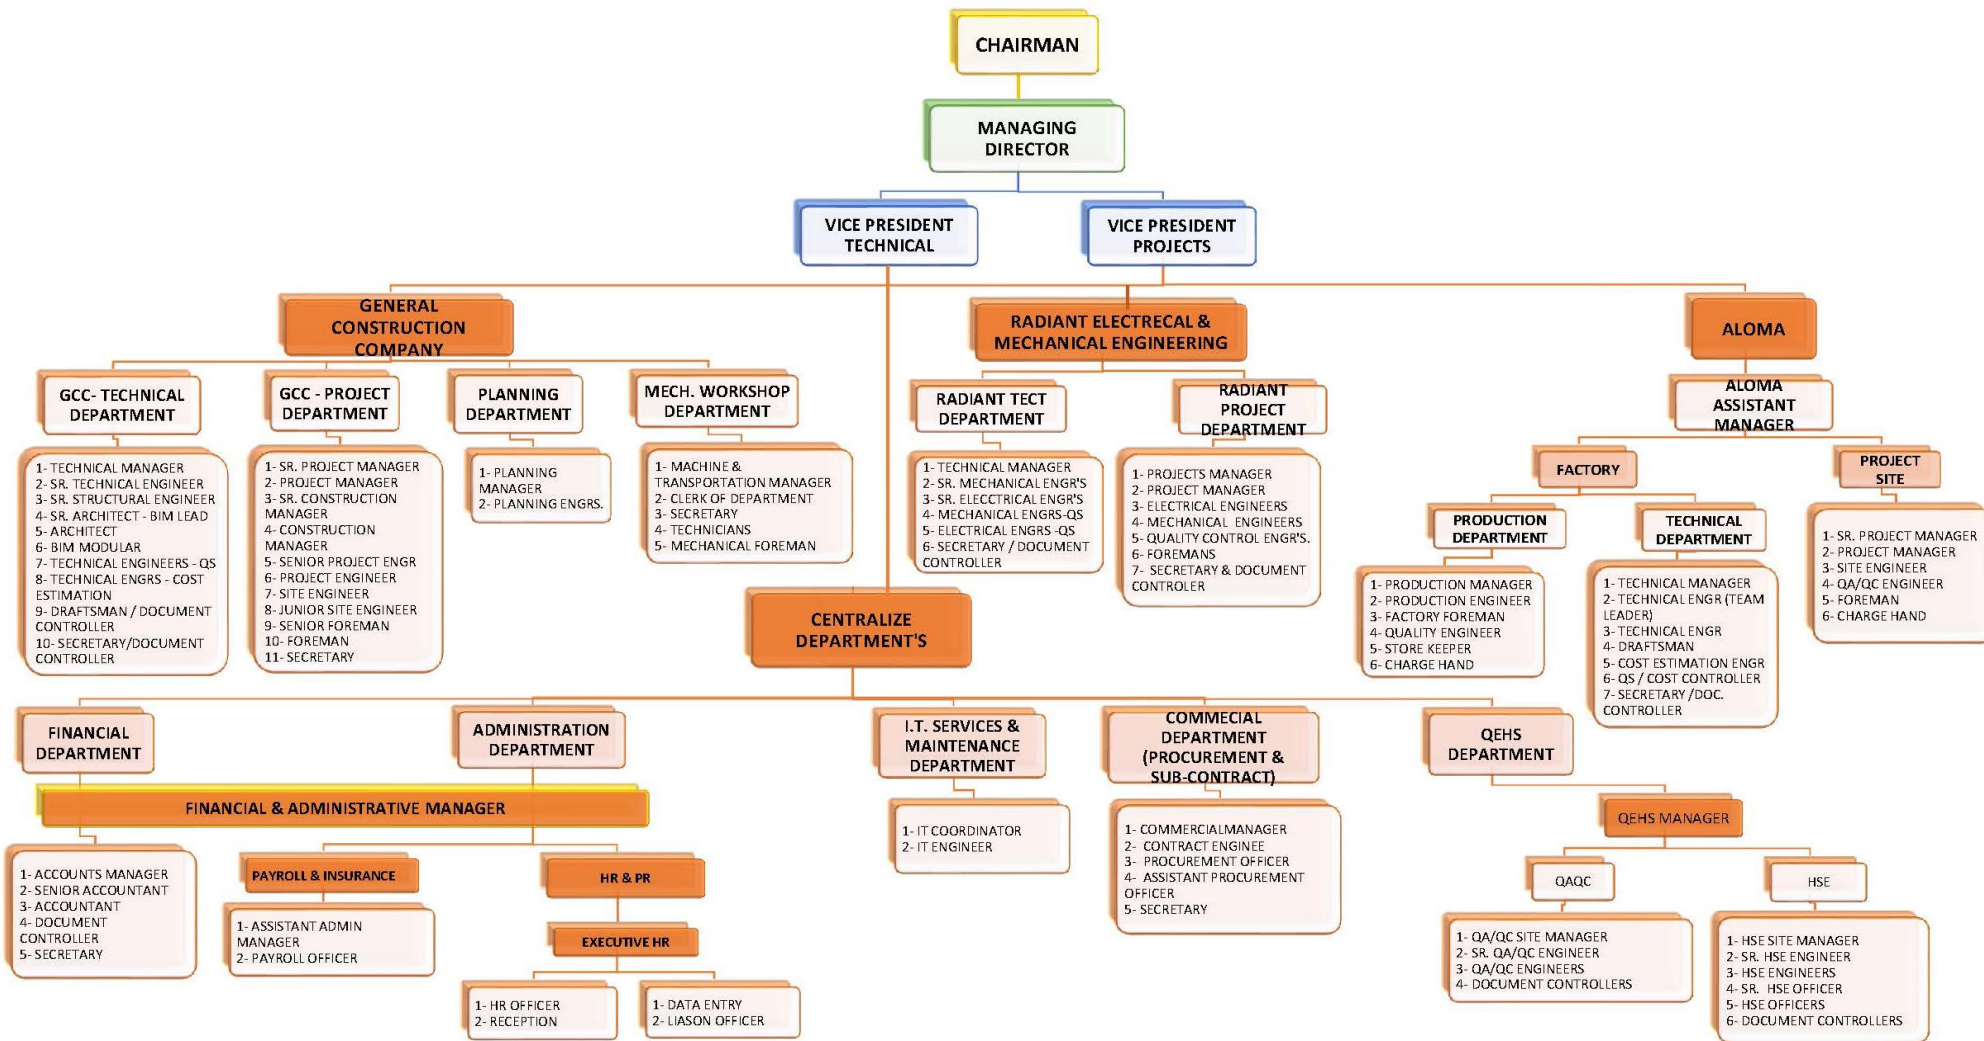

With over 25 years of diverse experience in serving various building markets, General Construction Company LLC takes pride in the fact that a substantial portion of our business is derived from repeat customers and client referrals.

Irrespective of the scale or nature of each construction project, General Construction Co. LLC is dedicated to providing tailored, innovative, and quality-focused solutions that align with customer expectations and deliver exceptional results.

Through mutual trust with clients, seamless communication, and collaborative efforts across locations and departments, General Construction Company LLC has amassed an impressive track record of successfully completed projects. We are recognized for undertaking large, complex endeavors and making a positive impact for our clients, employees, and the community alike.

THE EMIRATES

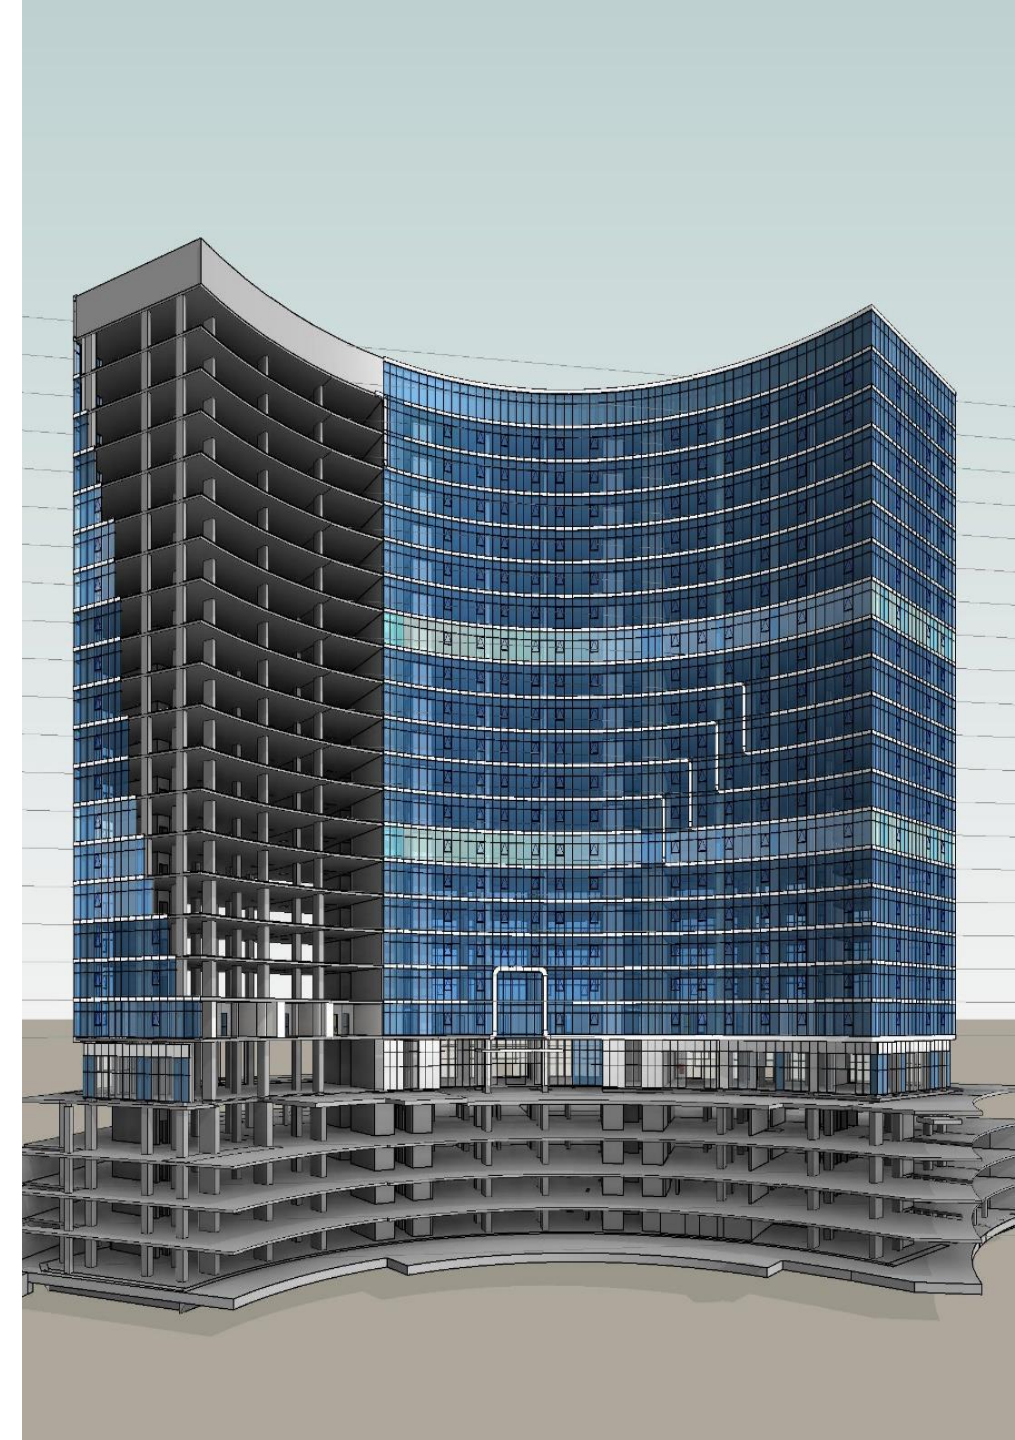

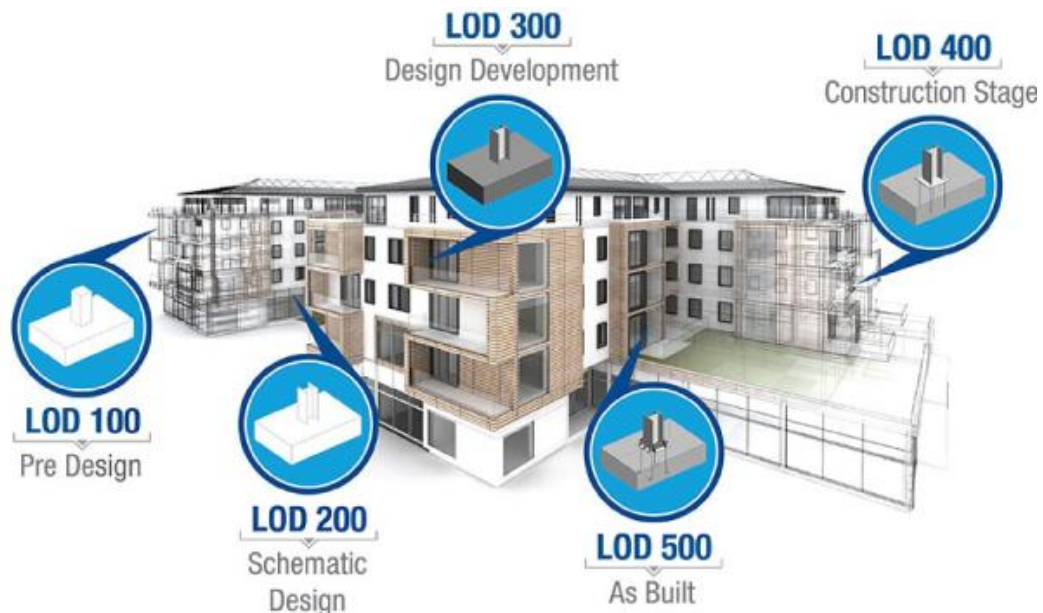

BUSINESS DEVELOPMENT (BIM)

General Construction Company announces its adoption of Building Information Modelling (**BIM**) technology – a collaborative engineering technology solution. The technology is a digital representation of physical and functional characteristics of a facility, forming a reliable basis for decision-making during a project's life-cycle.

The Company made the executive decision to integrate **BIM** on projects and into operations going forward, as it allows for greater operational efficiency enabling significant cost savings on projects that can be managed through the platform.

BIM is an intelligent 3D model-based platform that provides users with insights or tools for architecture, engineering and construction. BIM helps to plan, design, build, construct and manage building and infrastructure virtually.
